Position Name: Data Annotator

Position Type : Contractual, Remote / Work From Home

Start Date : Immediately

Reports : Team Lead

Location : Uttara, Dhaka, Bangladesh

Industry : Data Processing

Vacancy : 200

Salary : Negotiable

Job Overview:

We are looking for detail and visual-oriented individuals to join us in our goal to improve the quality of product for customers in communities across the nation. As a Data Annotator, you will be responsible for annotating the key products. The ideal candidate for this role is a visual learner, has great attention to detail, and is comfortable conducting repetitive work with product data. This is a great role to get your feet wet in the world of data processing! You will be a core part of the Quantigo AI's team in data collection, annotation, and quality assurance pipeline. Annotation tasks will be completed using specialized software tools. After being trained to use these tools and project guidelines, annotation tasks will be assigned. Do you have an eye for detail? If you are super detail-oriented, resourceful and you enjoy handson work, you may be the data annotator we're looking for!

Responsibilities:

- Use a variety of software tools to outline objects, activities, events and other items of interest in images, video and text annotation.

- Attach metadata (comments, markups, etc.) to image/video in accordance with established project procedures.

- Maintain ownership of each annotation assignment, and respond to any changes in procedure and audit.

- Collaborate with project leads to ensure that annotations meet project requirements with high-quality and also ensure on time delivery.

- Learn new tools and/or technologies as necessary to follow team workflow and accomplish annotation tasks.

- Will have to follow instructions from team leaders and annotate as per requirements and guidelines.

- Will assist team leaders for Edge cases identification and 1st level QC

Required Qualifications:

- Graduationfrom any reputed university. Student's whose graduation is still running can apply as well.

- Experience of doing Video & text Annotation will get preference.

- Experience of working with any BPO company will get preference.

- Very good Analytical skill.

- Proficiency in Microsoft Office and Google Ecosystem.

- Excellent communication skills in English, both verbal and written.

- Strong attention to detail and problem-solving skills.

- Able to work independently and as part of a team.

We thank all candidates for their interest; however, only those selected for an interview will be contacted via email.
